INTRODUCTORY.

This report is compiled from the application filed for State certificates under the "Act to protect stock breeders within the State of Illinois," during the year 1891. There were issued one hundred and sixty-eight certificates during the past year.

The pedigrees contained herein have been verified as far as practicable, by the various stud books of recognized live stock associations of America, England, Scotland and France.

No doubt inaccuracies will be found, owing to the indifferent, if not the entire, want of method in preserving the pedigrees of stock, adopted by many breeders and importers. Where it was possible to correct them before the certificates were issued, it has been done.

Again the attention of owners and breeders of live stock in this State is called to the necessity of having their animals properly and promptly recorded in the herd and stud books of the country.

During the past year there has been a most remarkable improvement in the class of draft, trotting, pacing and coach sires, in service in the State, and it is hoped that more attention will be given to the recording of the pedigrees of their progeny than before. A copy of the law relative to false pedigrees is given in this report, that breeders and importers may fully understand its provisions and appreciate the penalties imposed.

Blanks pertaining to the "Act to protect live stock breeders within the State of Illinois" will be cheerfully furnished on application.

W. C. Garrard,
Secretary State Board of Agriculture.
